Renzzo Gracia Gomez

Front-End Developer

Hermosillo, Sonora, Mexico · Open to remote work

renzzo.gomez07@gmail.com · renzzogg.com · github.com/RenzzoGG · platzi.com/p/renzzo.gomez07

SUMMARY

Software Engineering student and front-end developer who turns ideas into fast, responsive websites. I combine solid web fundamentals in HTML, CSS and JavaScript with modern AI-powered tools like Claude Code to deliver clean, working sites quickly, and I handle deployment myself: custom domains, HTTPS and automatic updates included. Currently available for freelance projects.

SKILLS

Front-end: HTML5, CSS3 (Grid, Flexbox), Sass, Tailwind CSS, JavaScript, Responsive Design
Libraries: Chart.js, jsPDF, SheetJS
Design: UI design fundamentals, Design systems
Tools & workflow: Git, GitHub, Linux (WSL), AI-assisted development (Claude Code)
Deployment: Railway, Cloudflare (DNS, SSL), Custom domains
Currently learning: React, Node.js, Bootstrap, jQuery

PROJECTS

Fernwick Home Cleaning — Landing page
Conversion-focused landing page for a home cleaning business: clear pricing, trust signals and a validated quote request form, built mobile-first.
HTML, Tailwind CSS, JavaScript · Live: renzzogg.com/projects/cleaning-landing/ · Source

Inventory & Sales Dashboard — Web app
Product management dashboard with category filters and one-click export to PDF and Excel, wrapped in a clean, modern UI.
HTML, CSS, JavaScript, jsPDF, SheetJS · Live: renzzogg.com/projects/inventory-dashboard/ · Source

UIFlow Admin Dashboard — Web app
Single-page admin dashboard with interactive charts, filters and dynamic components.
HTML, CSS, JavaScript, Chart.js · Live: renzzogg.com/projects/UIFlow/dashboard.html · Source

UIFlow Landing Page — Landing page
Landing page for a fictional dashboard-building tool, focused on clear layout and strong visual hierarchy.
HTML, CSS, JavaScript · Live: renzzogg.com/projects/UIFlow/ · Source

EDUCATION

Software Engineering — Universidad Tecnológica de Hermosillo — 4th term · in progress
